

we're hiring

social media marketing careers

Exciting new start-up company is looking for a few exceptional individuals to join our team! All applicants must be very familiar and comfortable with the Internet, search engines, and e-mail, and be eager to generate new ideas for effective online retail marketing campaigns.

Marketing Manager -

We are currently looking for a dynamic and energetic candidate to manage internal and external communications for our company and clients, as well as determine the demand for product features and services offered, help to identify potential customers and work directly with customers to manage online campaigns and develop campaign strategy.

Senior Web Developer -

Looking for applicants with web design and web development skills. Experience with XHTML Strict, CSS, JavaScript, Photoshop and Illustrator a must. Experience with PHP, MySQL, CodeIgniter, and other PHP technologies will get preference. The successful candidate will work on internal systems, manage corporate web presence sites and assist in various UI projects.

Customer Service Consultant -

Responsible for managing client relationships, building content portfolios, reporting, data entry and preparing internal and external systems for client needs. The successful candidate will be in direct contact with individual and corporate customers. Exceptional verbal and writing communication skills a must.

External Consultant Opportunities:

Multimedia Designers -Comfortable with Flash, Silverlight and/or video technologies.

SEO Copywriters -Comfortable with the basics of SEO strategy and able to write or rewrite copy to meet strategic goals.
