

Happy Birthday Dear Brandi

*It all seems clearer what God did that day
See, YOU were his angel sent to us for a stay
To help us understand life in many ways.
And to always remember life is just a stage.*

*The problem with giving you as a gift
He forgot we would love you more than a bit
You had such charisma which stood out in a crowd
And charmed all around you with your smile so loud*

*We always remember our gatherings on your birthday
And how we shared you in a very special way
As we reflect to those times when you were here
We remember the laughter you brought to our ear*

*Your separation has taught us to reach out to others
An imprint of your life when you were among us
Knowing you're holding their dear ones so near
Our angel named Brandi will always keep us from fear.*

Happy Birthday Dear Brandi, Your Loving Family
