We started our business in Norwich 36 years ago...and offered an opportunity for our employees to join the exciting and growing field of telecommunications.

We trained and educated those employees to work for the most exciting Telecom companies around the country. 36 years later we find ourselves immersed in the nation's push for 5G...and need new employees to help us succeed in this new push...right here in New York State. If you have worked for us in the past...or just want to get involved in this new and exciting opportunity ahead of us...we want to talk with you.
