Need a major home repair? Can't afford it?

The Impact Project understands these challenges.

We help low-income families maintain and increase equity in their homes and stabilize their housing situation through repair and rehabilitation projects. Our goal is that after the rehabilitation project, homeowners are able to keep up with regular home maintenance on their own. The Impact Project's primary target population is homeowners with income at or below the Federal Poverty Guidelines whose homes are in need of major repairs and/or handicapped accessibility.
