

“ Nothing in all the world is more dangerous than sincere ignorance and contentious stupidity” Martin Luther King, jr.

When confronted about the failure to complete paperwork for the renewal of the Ambulance contract, Nick’s response has been: “Nobody told me I had to do this”.

Besides being false, since two attorneys advised him to do so, this statement is a perfect example of the “sincere ignorance” that King speaks of, and the push to cancel and dismantle the work of dedicated citizens is the epitome of “contentious stupidity”.

In his opposition to both the Comprehensive Plan and the Zoning Amendment, both of which were recognized with State Awards, Palevsky and his cronies have attacked and demeaned the efforts of the good citizens of Richfield who worked tirelessly to produce documents that would move the Town forward to prosperity, low taxes, job creation and a better quality of life. With all their criticism, Nick and co. have produced NO alternative ideas; Nick’s only response is to dismantle, cancel and repeal.

Is Nick really worth keeping? Vote Dan Sullivan Supervisor, and re-elect Larry Frigault, Rex Seamon and Tim Proctor.

Let’s keep moving forward!
