

In Loving Memory of Alicia A. Brigham

Just as we entered the year 2020 with a pandemic, we never thought that we would have to deal with another tragedy in our lives.....then we lost you. We can not believe its already been a year when it just seems like it was yesterday. You were the best wife, mother, sister in law, daughter in law, sister, daughter & niece that anyone of us could have ever wished for. I know there is a saying that, “everything happens for a reason” but I think we would all agree that we will never understand this meaning now. The loss of you has been nothing but why’s?? You had a heart of gold and would do anything for anyone within your powers. You were the most unselfish person that we all knew. You always put others needs ahead of your own even when we all knew that you were the one that needed a break. We know that you watch over all of us every day but it doesn’t make the pain we all still have any easier, we just find some sort of peace knowing that you no longer feel pain.

You were definitely taken from us way too soon but your memory and the memories we can share of you will always live on with each day we have left. You will never be forgotten and your spirit will live on through us all. Just know that we miss you & love you everyday! Until we meet again, Alicia, keep shining your light on all of us, even in our darkest days! Fly high beautiful girl! Forever 38!

*In our Hearts Always & Forever,
Ryan, Peyton, Ashley & Vicky*
