

# MEETING EVENT... What's New!

**You're  
Invited**

## Microbiology Nutrition

The inventor is the speaker  
Time to think differently

**Monday, January 31<sup>st</sup> – 10:00 a.m.**  
**South Minden Fire Dept**  
**1029 NY State 163**  
**Fort Plain, NY 13339**

**RSVP by Friday, January 28 to:**  
**Myron Freed - (607) 229-3203**  
**or Priority IAC - (920) 682-0264**

**Meal provided**

*For Healthy Cows®*

### What we'll cover:

1. Early harvest and moisture effect on the rumen
2. The rumen works with microbiology:  
Microbiology Nutrition - P-One™, the 1st Ingredient™
3. Three simple nutrition targets/steps
4. Any truth to effective fiber, particle length, scratch factor?
5. Water enhances energy – making feeds wetter for milk, butter fat and stability
6. Ration density – less intake, maximizing feed efficiency
7. Feeding to an empty bunk improves efficiencies
8. Feeding at consistent times makes milk

### The inventor of Microbiology Nutrition

Priority IAC is a farm-developed concept, family-owned company the first to bring Microbiology to the industry. A breeder, farmer, and inventor!

**PRIORITY IAC™**

**Presented By:**  
**Richard V. Breunig,**  
**Priority IAC**
