The Affordable Connectivity Program is a Federal
Communications Commission program that helps connect families
and households struggling to afford internet service. This new
benefit provides a discount of up to \$30 per month toward
broadband service for eligible households and up to \$75 per month
for households on qualifying Tribal lands. Eligible households can
also receive a one-time discount of up to \$100 to purchase a
laptop, desktop computer, or tablet from participating providers.
Eligible households can enroll through a participating broadband
provider or directly with the Universal Service Administrative
Company (USAC) using an online or mail in application.
You can learn more about the benefit, including eligibility and
enrollment information, by visiting www.fcc.gov/ACP, or by
calling 877-384-2575.

We are again preparing income taxes! The process will be very
similar to last year; a drop off appt, copies and intake left here for
volunteers to complete, and then a pick-up appt to review and
approve for efilng. Appointments will be taken for a February 7th
start date. Please note we have screening questions we must ask
everyone. Thank you for your patience.
