

BENEFIT FOR

Bryden Houk, Markel Grimm and Kalvin Grimm Jr.

On July 31, 2024 Bryden, Kalvin and Markel were in a bad car accident. They all have a long road to recovery. Bryden broke his neck in two places, fractured both shoulder blades and fractured his t4 & t5 and had cuts and lacerations to his face. Markel has a broken jaw, ripped gums, broken teeth and a shattered chin. He also has a crushed nasal passage and broken ribs. Kalvin Jr. has a broken collar bone, ankle and a cracked chest bone. These boys all need some type of surgery and there's going to be a lot of trips to and from Albany for follow ups and so forth. So with that being said that's the reason we are holding this benefit is to help offset some of the cost of their medical and traveling expenses.

Saturday, October 12, 2024
