

Delaware County Public Health Department Invites Community Participation in Health Survey

Delaware County Public Health, in collaboration with Delaware County hospitals, is encouraging all community members to take part in an important Community Health Survey. This initiative aims to gather valuable insights into the health concerns and priorities of residents in Delaware County, which will aid in the development of health programs to address local needs.

The survey, available at <https://www.surveymonkey.com/r/SZFMX9G>, is quick and easy to complete, taking only 5 to 10 minutes of your time. It is open to all adults ages 18 and older, with a request for one survey per adult in each household. Most importantly, your responses will remain completely anonymous, ensuring that your opinions and experiences are confidentially recorded.

“The information collected from this survey will play a crucial role in shaping future health initiatives in Delaware County,” said Amanda Walsh, Delaware County Public Health Director. “We strongly encourage all residents to participate and have their voices heard.”

How You Can Help:

- Visit <https://www.surveymonkey.com/r/SZFMX9G> to access the survey.
- Complete the survey in just 5-10 minutes.
- Encourage fellow community members to participate.

Delaware County Public Health thanks you for your time and effort in contributing to this important cause. Together, we can create a healthier future for our community.

For additional information or questions regarding the survey, please contact Delaware County Public Health at 607-832-5200. Esta encuesta también está disponible en español en el sitio web mencionado arriba. ➡
