

**The Richfield Springs Rotary Club
would like to announce the completion
of their Bathroom Renovation at the
Richfield Springs Spring Park.**

In 1973 the Rotary Club installed a bathroom underneath the gazebo at the park which for many years was the only permanent bathroom in the park for the public to be used for events in the Park. The Village had done repairs when needed till now.

In early 2025 then President Vincent Guerra noticed the antiquated facilities and approached the Rotary Board about getting a grant from Rotary International to do upgrades to the bathrooms.

After getting permission from the Mayor Rick Spencer and the Board of Trustees Vincent and Ross Jones put into motion the paperwork for the grant which we were awarded.

Rotarians Jonathan Leinhart, Charles Strange, Ross Jones, Cindy Talbot, Cyndy Andela, Marie and Vincent Guerra took part in removing, recycling, patching the floor, painting walls and floor, installing the new bathroom facilities.

So next year the bathrooms will be all new and clean for use during Park Events.
