

The Hartwick American Legion Auxiliary, Post 1567 will host a
Spaghetti Dinner Benefit for Megan Dennis
who has been diagnosed with Chiari I Malformation—a condition in which the brain lacks adequate space within the skull, placing pressure on the brain and spinal cord.

Chiari is frequently undiagnosed or misdiagnosed, and while this diagnosis has provided long-awaited answers, it comes with ongoing neurological symptoms that create daily challenges. Megan and her loved ones are now facing unforeseen financial burdens, including medical expenses, in-home support, and other related costs associated with her care.

The Spaghetti Dinner will be at the Hartwick American Legion on Thursday, February 26th serving begins at 5:00 pm.

We are accepting Spaghetti Dinner contributions that will support the benefit dinner and those interested can contact the Legion directly at 607-293-7511. Additionally, the family will accept monetary donations, which can be sent directly to the family, addressed to
Deb Dennis at
2986 County Highway 11, Hartwick, NY 13348.
Deb can also be reached at 607-287-2089.
