PENNYSAVER

Great Getaways

Take advantage of this summertime opportunity to reach day trippers, weekend warriors and out-of-area visitors looking for fun things to do in our areas.

This summer, families right here in our own backyards will be looking for things to do and places to go that are more affordable, involve less long-distance travel, but are still enjoyable and exciting. Make sure to promote your business in Great Getaways by calling the Pennysaver at 800-767-7862 today!

As, what locals might call the Grand Union Plaza in Norwich, is about to be auctioned off on April 20th, we thought you may enjoy looking at what the Grand Union "SUPER-ETTE" had to offer about 87 years ago.

Self-identified as AN AMAZING NEW KIND OF FOOD STORE, their advertisement was published in the December 29th, 1938, edition of the Pennysaver.

Thank-You for Your Support!

Hospice & Palliative Care of Chenango County has been caring for Chenango County families since 1991. Last year, we cared for almost 200 community members and their families, providing relief when it was most needed. Your generous support empowers our organization to continue delivering the highest quality of care and to be a prime source of relief for our community. Also, a very special thank-you to Pires Flower Basket of Norwich and Mountain View Gardens of Sherburne for their support of this annual event.

THANK YOU TO OUR SPECIAL SPONSORS!

Please call 607-334-3556 or visit hospicechenango.org for more information and to order!

Is Your Home Being Marketed... or Just Listed?

Dinnett Moore
Licensed Real Estate Agent

Cell: (607) 764-0023
Office: (607) 336-3636
dinnett.moore@kw.com

"Homes don't sell for top dollar by accident. They sell because of how they're presented."

Before you hire an agent, ask this:
Is your home going to be strategically marketed—or just put on the MLS and hoped for the best?

I work with sellers who want:

- Professional photography that attracts serious buyers
- Strong online presentation, including virtual tours
- Smart pricing based on strategy, not emotion
- Clear communication from prep to closing

Your home is one of your biggest assets. It deserves more than a sign in the yard.

Now accepting new seller clients.

LAWN & GARDEN

Create a budget-friendly home landscape

Homeowners understandably envy the award-worthy photo spreads in lawn and garden magazines, wanting to emulate those same looks on their own properties. Scores of designers and landscape architects are involved in the process of creating those amazing lush lawns and perfectly placed plantings. Although not every homeowner has the budget to create lavish landscape designs, it's still possible for homeowners to create lawns they can be proud of.

- Establish your budget. The first step in any project is to determine how much money you can devote to the job. Once you have established the budget, all other factors can be built around it.
- Find an inspiration piece. Great landscapes are inspired by many things, whether it's a memorable piece of art or a landscape layout in a lawn and gardening magazine. Use photos of other gardens or neighbors' yards as inspiration and build off of them. As long as the theme is cohesive, it will look pleasing to the eye.
- Consider the space and how you want to use it. Understanding the space will help you better allocate your budget. If your yard is more of a retreat, look for ways to create privacy and a vacation feel. If you have kids and entertaining friends is a main priority, focus on recreational aspects, such as a pool, playset and some durable plants. Understanding how to allocate your budget will help you to avoid spending money frivolously.

- Think about reclaimed or repurposed materials. Brand new items can quickly eat up a budget. However, repurposing salvaged or inexpensive items can stretch that budget while adding some unique flair to a landscape. See if you can find an outdoor patio set that someone is giving away or selling for a lower price. All it takes is a coat of paint and some new cushions to make it look like new. Discarded bricks or stones can be worked into a patio space or used to create raised garden beds. Purchase inexpensive flower pots and then paint them to make them look like stone or another desired material.
 - Buy native plants. Native plants, shrubs, trees, and flowers will fare better than non-native, exotic plants. That means you'll have to spend less time and money nurturing them into health, and less money having to replace plants that cannot withstand your climate.
 - Consider perennial plants. Perennials may cost more at the outset, but the savings will be realized in the years to come.
 - Hire a professional. It may seem counterintuitive to spend money on a landscaping professional when you've established a strict budget, but that's one way to save money. Landscape artists or garden designers have the experience to guide you in the right direction and help you avoid potentially costly mistakes.
 - Use gravel in spots where plants don't thrive. Gravel is an inexpensive landscaping material that can fill in voids where plants or ground cover simply do not flourish. Those working on limited budgets may be happy to learn gravel is typically less expensive than concrete or pavers.
 - Ask friends or family for clippings. Don't be shy about admiring the plantings of those you know. Flatter their good taste and ask if you can have some clippings to propagate yourself. These clippings can turn into lush plants in no time — with no additional spending required.
- With some frugal spending, planning and budgeting, anyone can create a beautiful landscape. GT164006

LAWN & GARDEN

Eco-friendly lawn care can be easy

Homeowners know that a healthy lawn can add considerable curb appeal to a property while giving residents of the home a place to relax and enjoy the great outdoors. But few might know that a healthy lawn can also benefit the environment, especially when homeowners take a proactive approach to lawn care that emphasizes eco-friendly techniques.

A proactive approach to lawn care can prevent certain problems, including disease, insect infestation and weed growth. When such problems arise, many homeowners opt to combat them with pesticides, which can harm the environment. But a proactive approach to lawn care can reduce the likelihood of developing such problems and protect the planet at the same time.

- **Emphasize healthy soil.** Healthy soil promotes strong roots, which leads to a more robust, lush and aesthetically appealing lawn. While a lawn needs to be fertilized in the spring and at various points throughout the summer, it's important that homeowners avoid overfertilization, which can create thatch that, when allowed to thicken, will prevent nutrients from penetrating the soil. Lawns need more nitrogen, phosphorous and potassium than soil can typically provide, so fertilizing throughout the warm weather seasons and into early fall can promote a healthy lawn. But choose a slow-release fertilizer so it gradually feeds the lawn. Compost and grass clippings can also be spread around the lawn to promote healthy soil. The pH level of the soil should also be checked to ensure the lawn can fully absorb nutrients. Speak with a local lawn care professional to determine what a healthy pH level is for soil in your area.

- **Choose a grass that can thrive in your climate.** Though you might prefer the look of a certain grass, choosing a grass based entirely on appearance is a mistake that could cost you money and prove harmful to the environment. When installing a new lawn, opt for one that's suitable to the local climate. Installing a lawn that needs substantial amounts of water in a region known for drought can rob the lawn of its aesthetic appeal and will cost homeowners a substantial

amount of money to maintain. If an existing lawn struggles to stay green regardless of your best efforts, then consider replacing it with a new type of grass that might be more suited to the local climate.

- **Don't cut too low when mowing.** Homeowners who don't enjoy mowing their lawn might be tempted to simply cut the grass as low as possible to extend the intervals between cuts. But the United States Environmental Protection Agency recommends that grass never be cut more than one-third of the height of the grass blades. Longer grass can take in more sunlight, allowing it to grow in thicker and develop a deeper root system. That deep root system can help a lawn survive drought and prevent disease, two potentially costly problems that often force homeowners to embrace solutions that are not eco-friendly. Ideal lawn height depends on the type of grass, so consult a lawn care professional to ensure you are cutting your grass to a healthy length.

- **Avoid overwatering.** Excessive watering not only wastes water, which is not very eco-friendly, but also hurts the lawn when dry periods inevitably arrive. That's because shallow and frequent watering encourages roots to stay near the surface, so when dry periods arrive, the roots struggle to find water. The EPA notes that an established lawn should not need daily watering. Instead, watering responsibly when the lawn needs water and when evaporation can be kept to a minimum, can strengthen a lawn and do so in an eco-friendly way. GT144076

LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.

VAN'S AUTO SALES & SERVICE

QUALITY CAR & TRUCK Repairs. Reasonable Prices. Van's is a name you can trust with over 30 years in the business. We do it all: Tune ups, tires, wheel alignments, a/c, brakes, shocks, struts, exhaust system work, belts, hoses, cooling system repair, lube, oil & filter, and more! We take pride in our quality work. Call today for your repairs. 607-432-3511. Van's Auto, Country Club Rd. & Miles Ave., Oneonta, NY 13820.

GUARANTEED CREDIT Approval. Call or stop in for more details. Norwich Dodge-Chrysler-Jeep, Hale St. Ext., Norwich, 607-336-2277.
