LAWN & GARDEN

Spring lawn seeding basics

Spring has sprung, and there are many activities to enjoy now that the warmer weather has arrived. Many homeowners make the most of warmer weather by tackling projects around their properties. While autumn is a better time to overseed a lawn for new growth, satisfactory results still can be had if seeding is done early enough in the spring. Grass needs ample time to establish roots and grow strong before the summer heat takes its toll. Many types of grass need six to 12 weeks of ideal temperatures and growing conditions to germinate and produce a sturdy grass that will grow and endure. Seeding can be done to rejuvenate an existing lawn and fill in bare spots. It also can be done to start a lawn from scratch. The following are some tips to help make seeding projects more successful.

- Begin by raking the lawn to remove thatch and any fallen leaves leftover from autumn and winter. Raking also enables you to inspect the lawn for bare patches or matting of grass that may be indicative of a fungus or other problem.
- Dust off the mower and trim the lawn short, especially if it was left long at the end of last season. This will help seed penetrate the blades of grass and get to the soil beneath.
- High-traffic lawns may need aeration to counteract compacted soil. Moss on the ground is often an indication of compaction. Aeration will help with this problem, as it pokes holes into the soil to enable oxygenation that keeps new grass robust and promotes faster growth. Lawn aerators can be rented from many garden centers.

- Spread a mixture of topsoil and compost over the top of the lawn. This will add nutrients through organic matter to the lawn and create a good base for the new seed to take root. It will also help strengthen any existing grass and promote long-term health.
 - Test a sample of the soil to check the pH. Grass prefers a neutral pH, but some soil tends to lean toward the acidic side, especially if you see the presence of moss. Knowing the pH will help determine just how much lime per square foot you will need to adjust it accordingly. Liming is a corrective measure and does not need to be used on a healthy, thriving lawn.
 - Invest in a spreader to add seed to the lawn. The spreader will have various settings that enable you to calibrate the rate of seed dispersion depending on your walking speed. Fill the spreader with seed and begin to walk around the lawn. Drop spreaders require you to apply seed in rows with no overlap. Broadcast spreaders will cast seed widely and may need some overlap to guarantee complete coverage.
 - Spread another thin layer of compost mix over the seed and water thoroughly. The compost will help keep moisture in while the seeds germinate.
 - Aim for lawn watering two to three times per day. The seed should be barely dry between watering. After seeds have germinated and established, you can reduce the frequency of watering but increase the depth of the watering to keep roots strong.
 - Avoid foot traffic on a newly seeded lawn until the grass is well established.

"EXPERIENCE"

April 20, 2025

Schoharie County Office for the Aging
518-295-2001

Word of the day--Aegis: Refers to the power to protect, control, or support something or someone.

Fun Fact - Squirrels can't burp or vomit, nor can any other rodent, which is why rat poison is so effective.

Laughter Is Good For The Soul

- "Age is an issue of mind over matter. If you don't mind, it doesn't matter."
- "My mind says I'm still young, but my body keeps reminding me otherwise!"

Please join our April Life Chat for our monthly meeting, at The Gathering Place, 127 Kenyon Road, Cobleskill, N.Y. on April 30th at 1:00PM. We will share life events and caregiving. As it is also Parkinson Awareness Month, material on Parkinsons will be available provided by the Parkinsons Foundation. Door prizes and light refreshments will be available. Questions or to RSVP contact Lenore Tsami at 518-295-2001.

Medicare Reminder - Making Part B enrollment decisions with QHP coverage. If you have a Qualified Health Plan (QHP), deciding what to do as you approach Medicare eligibility depends on your circumstances. In most cases, you should enroll in Medicare and disenroll from your QHP, but there are two exceptions:

1. You have End-Stage Renal Disease (ESRD). If you have kidney disease that requires dialysis or transplant and are eligible for Medicare, you have the choice to enroll in or stay enrolled in a QHP with cost assistance (tax credits). Be sure to consider how the QHP's coverage and costs compare to Medicare before deciding to delay Medicare enrollment. For counseling regarding your insurance options, contact your State Health Insurance Assistance Program (SHIP).
2. You do not qualify for premium-free Medicare Part A. If you are eligible for Medicare but would have to pay a premium for Part A, you can keep your QHP with cost assistance as long as you do not enroll in any part of Medicare.

You should consider all consequences carefully before deciding to keep a QHP instead of Medicare. If you ever decide to enroll in Medicare, you may have to wait for the General Enrollment Period (GEP) to sign up. Using the GEP to enroll means you may experience gaps in coverage and incur a late enrollment penalty (LEP).

If you qualify for premium-free Part A, you should not continue using the Marketplace to get health and drug coverage. Enroll in Medicare when you are first eligible and disenroll from your QHP in a timely manner to avoid paying extra premiums.

Feeling isolated or burnt out as a Caregiver? Interested in learning from other caregivers? Do you experience frustration or guilt and need a safe place to process? Please come and join us for a monthly Caregiver Support Group, "Life Chat" the 4th Wednesday of every month at 1PM. At The Gathering Place 127 Kenyon Road, Cobleskill, NY 12043. Contact Lenore at Office for the Aging 518-295-2001.

Reminder The Parkinson Support Group meets on the second Tuesday of every month, at 1PM. The next meeting will be May 13, 2025, at The Gathering Place, 127 Kenyon Rd., Cobleskill, 12043.

Did you know - The extinct colossus penguin stood as tall as LeBron James.

Thought for the Week... "Drench yourself in words unspoken/ Live your life with arms wide open/Today is when your book begins/The rest is still unwritten."-Natasha Bedingfield
