Vote to re-elect Assemblyman Joe Angelino.

*Joe Angelino is a retired member of the U.S. Marines. The use of his military rank, job titles and photos in uniform does not imply endorsement by the Dept. of the Navy, Marine Corps or Dept. of Defense.

Republican Joe Angelino has dedicated his life to serving and protecting us.

A lifelong Republican, Joe served in the U.S. Marine Corps for 23 years, including active combat in the Middle East on multiple tours. He was twice wounded in combat, before retiring from active duty in 2008.

Among many other accolades, Joe Angelino was presented with the NYS Conspicuous Service Cross, was inducted into the NYS Purple Heart Hall of Honor, and was named 2012 NYS Veteran of the Year.

As our Assemblyman since 2021, Joe Angelino has fought for us against Downstate interests.

Joe voted against Bail Reform and continues to push for its repeal. He believes that public safety policy should protect crime victims, not make life easier for criminals.

As former Norwich Police & Fire Chief, Joe has also fought to ensure law enforcement and first responders get the resources they need.

Vote Angelino for Assembly on the Republican or Conservative line on your ballot.

A battle-tested leader fighting for our Upstate Values.

FALL CAR CARE

Charge up your car battery knowledge

Vehicles consist of many essential components to keep them running efficiently and effectively. Car and truck owners should have an understanding of how their vehicles function so they can diagnose and address problems as they arise.

Car batteries are an important component of any vehicle. Even though engines are the powerhouse of any car or truck, without a battery, the engine wouldn't be able to work. According to Firestone Complete Auto Care, car batteries work by providing a jolt of electricity necessary to power all the electrical components of the vehicle. This is achieved through a chemical reaction that changes chemical energy into the electrical energy needed to deliver voltage to the starter. In addition to initially starting the car, the battery also keeps electric current steady to keep the engine running. The battery also works in conjunction with the alternator to power the electronics in the car, according to the automotive information blog Autosessive. While the car is running, the alternator reverses the current produced by the battery, recharging it as a result. This happens during long journeys, so people who drive for short bursts of time may find that their batteries will not have a chance to recharge and may not have the longevity desired.

There is quite literally a lot riding on a functioning battery. No one wants to be caught stranded by a dead battery, so drivers may wonder if there are any indicators that may signal the battery needs replacement.

- **Slow turnover:** If a vehicle does not immediately start or if the cranking is sluggish and takes longer to start, it may mean the battery is starting to fail.
 - **Frequent, short trips:** Drivers who make frequent, short trips may find their car batteries do not have time to fully recharge. This, coupled with overtaxing thanks to a lot of accessory use, may cause the battery and the alternator to have shortened life spans.
 - **Low battery fluid levels:** If the fluid level is below the energy conductor inside, it is often indicative of overcharging and excessive heat.
 - **Corrosion:** Corrosion buildup, dust, dirt, and grime on battery connections may cause performance problems. Inspecting and cleaning the terminals can prolong the battery life.
 - **Odors and leaks:** Battery leaks can produce a sulfur odor similar to the smell of a rotten egg. This can become problematic over time, and leaks may indicate an aging or damaged battery.
 - **Age:** Most batteries have a finite life span. A well-maintained battery can last up to five years. Neglect can reduce that life expectancy considerably.
 - **Bloated or cracked battery case:** Replace the battery immediately if the case is cracking, as it could be because excessive heat is swelling the battery.
- Understanding how car batteries work can help drivers keep their cars running smoothly. SC203721

LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.
