Great Getaways

Take advantage of this summertime opportunity to reach day trippers, weekend warriors and out-of-area visitors looking for fun things to do in our areas.

This summer, families right here in our own backyards will be looking for things to do and places to go that are more affordable, involve less long-distance travel, but are still enjoyable and exciting. Make sure to promote your business in Great Getaways by calling the Pennysaver at 800-767-7862 today!

How to plant a tree for successful growth

More sunlight and warm temperatures frequently inspire homeowners to spend more time in the great outdoors during spring and summer. Outdoor projects often top homeowners' to-do lists in spring and summer, with gardens and landscapes taking center stage. Planting more trees around the yard is one popular project that can improve property value and benefit the environment.

Why plant trees?

There are plenty of reasons to plant trees. Trees provide a natural form of shade, reducing air temperature by blocking the sun's rays. This can reduce reliance on air conditioning systems and make it more comfortable to spend time outdoors during the summer.

North Carolina State University College of Agriculture & Life Sciences says trees absorb and block noise and reduce glare. They also can trap dust, pollen and smoke. Trees also absorb carbon dioxide and potentially harmful gasses from the air. One large tree can supply a day's worth of oxygen for as many as four people, while also storing 13 pounds of carbon per year.

Getting started

Visit a garden center or nursery and select a tree that will be hardy in your planting zone. Choosing native trees can increase the likelihood that the new tree will adapt to its surroundings. Also, inspect trees to determine if they're healthy before taking them home. Look for evidence of root girdling, which occurs when the roots circle around the perimeter of the container and surround the trunk. Trees should not have any dead or dormant branches. The DIY Network suggests locating the tree where it can thrive. This means

selecting a spot that can make it easier for the tree to grow tall and wide. Avoid planting near the house, where roots can crack concrete or asphalt, and always plant away from underground pipes.

Planting the tree

Now it is time to amend the soil. It's not enough to enrich only the soil in the hole where the tree will be placed. Move out into a circular area beyond where the roots will start so that roots can expand and properly anchor the tree. The next method of success is to ensure that the tree has a large enough hole to contain the existing root ball and allow for roots to grow and expand. Better Homes and Gardens experts say to prepare a hole that is two to three times as wide as the root ball of the tree. Treat the root ball gently. If the roots are wrapped in burlap, remove the burlap or push it to the bottom of the hole.

Backfill the hole with soil and check that the tree is straight. Stake the tree to help it stay upright and straight until the roots anchor it more effectively. A layer of mulch around the base of the tree can prevent weeds and reduce water loss. Water daily for several weeks until the roots have fanned out. It's best to leave trees be for the first growing season, only removing broken or diseased limbs. Resist pruning and shaping until the tree has survived its first growing season. TF175017

LAWN & GARDEN

Did you know?

If you think that the only way to exercise and burn calories involves gym equipment, think again. Yard work can be just as challenging as a thorough aerobics workout at a nearby fitness club. To reap the greatest benefits, gardeners should use as little motorized machinery as possible. Manual tools will get you moving and can burn a substantial amount of calories. Try to vary positions and alternate which hands you use to reduce strain and get an even workout. Fitness experts say that gardening can improve strength, increase endurance and assist with flexibility. According to a report in the UK publication The Telegraph, clearing a pond or weeding can burn some 300 calories in an hour. Forty-five minutes worth of gardening can burn as many calories as 30 minutes of aerobics. GT174890

LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of Craigslist and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.
