## ORDER TODAY!

**PLEASE NOTE:** Each customer will be provided with vouchers for their plant orders. When ordering, please select to pick up your vouchers from 33-39 Court St., Norwich, or to have them mailed to you. Customers can bring their vouchers to pick up their plants directly from the participating florists (Pires Flower Basket and Mountain View Gardens) between April 25th and May 25th. If you are placing your order through a Site, your order will be delivered directly to the plant sale Site Coordinator at your work place.

## Thank-You for Your Support!

Hospice & Palliative Care of Chenango County has been caring for Chenango County families since 1991. Last year, we cared for almost 200 community members and their families, providing relief when it was most needed. Your generous support empowers our organization to continue delivering the highest quality of care and to be a prime source of relief for our community. Also, a very special thank-you to Pires Flower Basket of Norwich and Mountain View Gardens of Sherburne for their support of this annual event.

Please call 607-334-3556 or visit  
hospicechenango.org for more  
information and to order!

### THANK YOU TO OUR SPECIAL SPONSORS!

**ChenTAC** **Chenango Threat Advisory Committee**  
**WHO WE ARE**

The formation of ChenTAC was established due to the ever-changing risks of targeted violence and mass shootings that society faces today. ChenTAC takes effective proactive and protective measures that are designed to prevent, not predict, potential acts of targeted violence and terrorism. Through identifying and managing potential threats, ChenTAC provides alternatives to investigation and /or prosecution for bystanders who are actively seeking intervention assistance with a known individual at risk of mobilizing to violence.

With the support of the Chenango County Sheriff’s Office, ChenTAC is a multidisciplinary team comprised of businesses, schools and colleges, social service agencies, mental health professionals, faith based organizations, community resources and local and state law enforcement. Collectively, we convene as a confidential group to identify, assess and manage potential threats of targeted violence.

**IMPORTANT DEFINITION**

**Targeted Violence** is premeditated violence and is usually directed at a specific individual, group, or location. A perpetrator of targeted violence is typically responding to a perceived grievance or acting on behalf of a particular ideology.

**Targeted Violence** is different from impulsive, reactive, or emotional acts of violence. Some examples of targeted violence are school shootings, workplace violence, domestic violence, stalking, and terroristic attacks.

**WHEN TO CONTACT ChenTAC**

If you become aware of someone exhibiting concerning behaviors, or threatening a person, group or entity, ChenTAC is available to help. Contact our report line at (607) 334-2000 or go to [www.chenangocountyny.gov/271/](http://www.chenangocountyny.gov/271/) Sheriffs-Office and find the Submit A Crime tip button. If you have concerns of imminent danger, call 911 immediately.

**See Something, Say Something**  
**YOUR ROLE IS IMPORTANT**

ChenTAC is relying on you, our biggest asset, to help identify potential threats. Without participation from members of the public, we can not identify ways to assist those who need us or protect our community.

**Chenango County Sheriff’s Office**

# TAX GUIDE

## THE RIGHT TO A FAIR AND JUST TAX SYSTEM

The Taxpayer Bill of Rights is a cornerstone document that highlights the 10 fundamental rights taxpayers have when dealing with the Internal Revenue Service. The IRS wants every taxpayer to be aware of these rights in the event they need to work with the IRS on a personal tax matter. The IRS continues to publicly highlight these rights to taxpayers. The IRS also regularly reminds its employees about these rights. The IRS expects employees to understand and apply taxpayer rights throughout every encounter with taxpayers.

IRS Publication 1, Your Rights as a Taxpayer, includes a full list of taxpayers' rights. It includes The Right to a Fair and Just Tax System.

Taxpayers have the right to expect the tax system to consider facts and circumstances that might affect their underlying liabilities, ability to pay, or ability to provide information timely. Taxpayers have the right to receive assistance from the Taxpayer Advocate Service if they are experiencing financial difficulty or if the IRS has not resolved their tax issues properly and timely through its normal channels.

What you can expect:

- If you can't pay your tax debt in full and you meet certain conditions, you can get a payment plan with the IRS. You pay a set amount over time, generally in monthly payments. See the IRS Online Payment Agreement Application.
- You can submit an offer in compromise asking the IRS to settle your tax debt for less than the full amount. You can do this if (1) you believe you do not owe all or part of the tax debt, (2) you are unable to pay the full amount within the time permitted by law to collect it, or (3) paying the full amount would cause financial hardship or would be unjust.
- The IRS has published a list of national and local guidelines about the basic costs of living. You can use it when considering an offer to reduce your tax debt. The IRS won't use these guidelines if they result in your not having enough money to pay your basic living expenses. The IRS would use your actual expenses instead.
- The IRS cannot levy, or seize, all of your wages to collect your unpaid tax. A portion will be exempt from levy to allow you to pay basic living expenses.
- You can receive help from the Taxpayer Advocate Service or from a Low Income Taxpayer Clinic.
- The IRS can abate the unpaid portion of any tax or liability, and is specifically authorized to abate interest that is excessive or interest that was assessed erroneously, illegally, or after the statutory period of limitations on collection has expired.
- The IRS can abate interest on an underpayment caused by unreasonable delay or error by an IRS employee if the taxpayer (or representative) did not contribute to the delay or error.

To find out more about the TBOR and what it means to you visit the Taxpayer Advocate Service's website. By making this important publication available in multiple languages, the IRS hopes to increase the number of Americans who know and understand their rights under the tax law. The IRS has more tax information in other languages too. See the "Languages" menu at the top of any IRS.gov page. The IRS also is committed to protecting taxpayers' civil rights. The IRS will not tolerate discrimination based on age, color, disability, race, reprisal, national origin, English proficiency, religion, sex, sexual orientation or status as a parent. This includes any contact with IRS employees and the staff or volunteers at community sites.

If a taxpayer faces discrimination, they can send a written complaint PDF to the IRS Civil Rights Division.

# LAWN & GARDEN

## Spring lawn seeding basics

Spring has sprung, and there are many activities to enjoy now that the warmer weather has arrived. Many homeowners make the most of warmer weather by tackling projects around their properties.

While autumn is a better time to overseed a lawn for new growth, satisfactory results still can be had if seeding is done early enough in the spring. Grass needs ample time to establish roots and grow strong before the summer heat takes its toll. Many types of grass need six to 12 weeks of ideal temperatures and growing conditions to germinate and produce a sturdy grass that will grow and endure.

Seeding can be done to rejuvenate an existing lawn and fill in bare spots. It also can be done to start a lawn from scratch. The following are some tips to help make seeding projects more successful.

- Begin by raking the lawn to remove thatch and any fallen leaves leftover from autumn and winter. Raking also enables you to inspect the lawn for bare patches or matting of grass that may be indicative of a fungus or other problem.
- Dust off the mower and trim the lawn short, especially if it was left long at the end of last season. This will help seed penetrate the blades of grass and get to the soil beneath.
- High-traffic lawns may need aeration to counteract compacted soil. Moss on the ground is often an indication of compaction. Aeration will help with this problem, as it pokes holes into the soil to enable oxygenation that keeps new grass robust and promotes faster growth. Lawn aerators can be rented from many garden centers.

- Spread a mixture of topsoil and compost over the top of the lawn. This will add nutrients through organic matter to the lawn and create a good base for the new seed to take root. It will also help strengthen any existing grass and promote long-term health.
  - Test a sample of the soil to check the pH. Grass prefers a neutral pH, but some soil tends to lean toward the acidic side, especially if you see the presence of moss. Knowing the pH will help determine just how much lime per square foot you will need to adjust it accordingly. Liming is a corrective measure and does not need to be used on a healthy, thriving lawn.
  - Invest in a spreader to add seed to the lawn. The spreader will have various settings that enable you to calibrate the rate of seed dispersion depending on your walking speed. Fill the spreader with seed and begin to walk around the lawn. Drop spreaders require you to apply seed in rows with no overlap. Broadcast spreaders will cast seed widely and may need some overlap to guarantee complete coverage.
  - Spread another thin layer of compost mix over the seed and water thoroughly. The compost will help keep moisture in while the seeds germinate.
  - Aim for lawn watering two to three times per day. The seed should be barely dry between watering. After seeds have germinated and established, you can reduce the frequency of watering but increase the depth of the watering to keep roots strong.
  - Avoid foot traffic on a newly seeded lawn until the grass is well established.
- GT144923

# LAWN & GARDEN

## What to expect with a tree removal

Trees serve many purposes for a landscape, providing shade and habitats for birds and other animals and serving as natural blinds between two homes. Trees are often beautiful elements of a natural landscape, adding aesthetic appeal to a property or even an entire community. But there are times when a tree must be removed, an action that, in many instances, requires the services of a professional tree service.

A tree with roots invading the foundation of a home or infringing on a patio or walkway can become a safety hazard. Other trees may cast shade where a pool is planned or cause disagreements between neighbors when the tree straddles a property line. These are instances when tree removal will be necessary, and a reputable service can advise as to the best methods for ridding the property of the troublesome tree.

Homeowners will need to do a bit of planning and research to remove trees safely and securely. It is best to contact a variety of different tree removal services and compare their offerings and prices. The cost of a tree removal will vary depending on various factors, including the height of the tree, its width, the number of branches it has, its location on a property and the proximity of that location to potential hazards like power lines. Tree removal may range from a few hundred dollars to several thousand.

When a tree is being removed, most of the branches will be removed to make the tree more manageable. Trees are rarely chopped at the base and allowed to fall, as there simply isn't enough room to safely take this approach. Sections of the tree will be cut, roped off and slowly lowered. A climber will

scale the tree or use a cherry picker machine to reach the top of the tree to facilitate the process.

The pieces of the tree will be loaded into a wood-chipper for grinding before they are hauled away. Larger, heavier portions of the stumps may need to be moved later on with machinery. Hauling trees off the property may cost extra, so it is important that homeowners read their contract thoroughly before signing on the dotted line.

Additional costs may be factored into the bill. These can include stump-and-root grinding. Trees will be cut down to the stump. To prevent eyesores or tripping hazards, some homeowners opt to have the stumps ground down into sawdust. This will not remove all of the roots but will take care of most of the above-ground portion of the remaining stump. It is usually up to the homeowner to discard the sawdust or use it as a mulching material.

Expect the ground around the former tree to be soft, and there may be a depression depending on how much stump grinding took place. Some people prefer to wait a season for the ground to recover before planting something new. It may take a while for grass to sprout where a tree was once located, and there may be bare spots when grass starts to grow in.

Tree removal can be an expensive venture but is necessary for different reasons. Be sure that tree-removal services are fully insured before signing a contract. GT144074

LAWN & GARDEN

Cultivate An Herb Garden

Many people cultivate gardens both inside and outside of their homes with a focus on adding aesthetic appeal to their property. But a garden that boasts plants that are edible and pleasing to the eye is a possibility as well. Planting an herb garden is a creative way to enjoy the sights, smells and tastes of a wide variety of plants. Using fresh-harvested herbs in culinary endeavors imparts a taste that dried spices cannot match. What's more, fresh herbs are often easy to cultivate.

Herbs are versatile, capable of lending great flavor to foods while also playing different roles in personal health and beauty. Herbs can be grown to perfume homes and bodies. There are herbs that are also purported to help with ailments, from upset stomachs to anxiety.

When planting an herb garden, you may want to pay particular attention to the types of flavors and smells you like in your home and cooking. This will help you to narrow down the types of herbs you will plant. Many would-be herb gardeners tend to start small to see what luck they have when cultivating herbs. Fortunately, herbs can grow well in containers indoors, provided the soil is amenable and there is plenty of sunlight.

Herbs will grow best in well-prepared soil. Make sure that it is rich in organic matter and drains well. Also, for plants like parsley, be sure to have deep pots or dig deeply in the garden to establish long taproots.

Until the weather warms up, you may want to begin herb cultivation indoors and then transfer plants outside during the summer. Basil, for instance, is a tropical plant that does well in warm conditions. Therefore, it will need to be kept away from drafts and get several hours of direct sunshine a day. Place most herb planters in a south-facing window of a home to ensure they get ample sunlight and to allow the soil to dry adequately between waterings.

With many herbs, leaf production will diminish on any stems that flower. It is essential to pinch off flowers that form to encourage the herb plant to continue producing leaves, which are the parts of the plant most associated with seasoning and aroma.

# CAR CARE

## Charge up your car battery knowledge

Vehicles consist of many essential components to keep them running efficiently and effectively. Car and truck owners should have an understanding of how their vehicles function so they can diagnose and address problems as they arise.

Car batteries are an important component of any vehicle. Even though engines are the powerhouse of any car or truck, without a battery, the engine wouldn't be able to work. According to experts car batteries work by providing a jolt of electricity necessary to power all the electrical components of the vehicle. This is achieved through a chemical reaction that changes chemical energy into the electrical energy needed to deliver voltage to the starter. In addition to initially starting the car, the battery also keeps electric current steady to keep the engine running.

The battery also works in conjunction with the alternator to power the electronics in the car, according to the automotive information blog Autosessive. While the car is running, the alternator reverses the current produced by the battery, recharging it as a result. This happens during long journeys, so people who drive for short bursts of time may find that their batteries will not have a chance to recharge and may not have the

longevity desired. There is quite literally a lot riding on a functioning battery. No one wants to be caught stranded by a dead battery, so drivers may wonder if there are any indicators that may signal the battery needs replacement.

- **Slow turnover:** If a vehicle does not immediately start or if the cranking is sluggish and takes longer to start, it may mean the battery is starting to fail.

- **Frequent, short trips:** Drivers who make frequent, short trips may find their car batteries do not have time to fully recharge. This, coupled with overtaking thanks to a lot of accessory use, may cause the battery and the alternator to have shortened life spans.
- **Low battery fluid levels:** If the fluid level is below the energy conductor inside, it is often indicative of overcharging and excessive heat.
- **Corrosion:** Corrosion buildup, dust, dirt, and grime on battery connections may cause performance problems. Inspecting and cleaning the terminals can prolong the battery life.
- **Odors and leaks:** Battery leaks can produce a sulfur odor similar to the smell of a rotten egg. This can become problematic over time, and leaks may indicate an aging or damaged battery.
- **Age:** Most batteries have a finite life span. A well-maintained battery can last up to five years. Neglect can reduce that life expectancy considerably.
- **Bloated or cracked battery case:** Replace the battery immediately if the case is cracking, as it could be because excessive heat is swelling the battery.

Understanding how car batteries work can help drivers keep their cars running smoothly. SC203721

## CARS

### LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.

### VAN'S AUTO SALES & SERVICE

QUALITY CAR & TRUCK Repairs. Reasonable Prices. Van's is a name you can trust with over 30 years in the business. We do it all: Tune ups, tires, wheel alignments, a/c, brakes, shocks, struts, exhaust system work, belts, hoses, cooling system repair, lube, oil & filter, and more! We take pride in our quality work. Call today for your repairs. 607-432-3511. Van's Auto, Country Club Rd. & Miles Ave., Oneonta, NY 13820.
